## **Historical Sketch**

Finlandia University's Finnish American Historical Archive's Historic Photograph Collection documents the visual imagery of Finnish America for 13 decades. The collection includes images from the first large wave of immigration into the Copper Country of Michigan's Upper Peninsula, which occurred in ca. 1885. These images document the early formation of the Suomi Synod, establishment of Suomi College and some early laboring environments and conditions in the Copper Country.

As the Archive was established ca. 1932, many of the repository's early collecting of photographic images centered on Suomi Synod or Suomi College related materials. As the collecting mission of the Archive expanded both ideologically and geographically, the Historic Photograph Collection branched out in representative areas and groups. The collection now represents most areas of "Finnish North America" and some interesting photographs and images of Finland, including a rare collection of glass plate negatives or lantern slides of the Winter and Continuation Wars that document the snowy, often bitter struggle between Finland and the Soviet Union from 1939-1945.

## **Scope and Content Note**

Finlandia University's Finnish American Historical Archive's Historic Photograph Collection is an assembled collection of black and white/color photographs, postcards, digital images, slides (film and lantern) and glass plate negatives collected since the Archive's inception in 1932. The photographs and images are arranged in six categories in a hierarchical order for placement of photographs in the collection. This hierarchical arrangement is a unique staff assigned arrangement to suit the needs of a single ethnicity repository that administers to many genealogical/family history researchers. Photographs and images of non-Finnish American individuals exist in the collection as well.

The six categories are: 1) Individual Donor Collections; 2) Families and Individuals; 3) Immigration and Folkways; 4) Landscapes; 5) Cultural Organizations and 6) Suomi College/Suomi Synod. The Individual Donor Collection category consists of 51 linear feet. Photographs and/or images in this collection are donated by the same entity in a quantity of over 15 images. The "Families and Individuals" category consists of 3.2 linear feet. The "Immigration and Folkways" category consists of 1 linear foot. The "Landscapes" category consists of 1.4 linear feet. The "Cultural Organizations" category consists of 2 linear feet. The "Suomi College/Suomi Synod" category consists of 10 linear feet. Also included in the Historic Photograph Collection are 11 linear feet of large format/oversize images from the "Families and Individuals, Immigration and Folkways, Landscapes, Organizational Groups and Suomi College/Suomi Synod" categories in flat archival boxes and 4 linear feet of large format photographs foldered in Historic Photograph Collection Cabinet 8.
